

Product Brochure

For the outdoor professional
www.bmsproducts.com

For all your golf course requirements.

As a British manufacturer that prides itself on exceeding customers' expectations – whilst creating innovative and professional golf course products – BMS is raising the standard across Europe with our unique approach to design and manufacturing.

Since starting BMS, We've held a desire to create golf products that not only look great but perhaps more importantly, stand the test of time. We strongly believe that BMS is beginning to set the benchmark across the industry when it comes to the quality, and longevity of our products.

Using advanced manufacturing technology, the dedicated team here at BMS prides itself in creating products of the highest calibre, and especially enjoy the challenge of creating bespoke products, designed specifically for your club.

Technology enhances us, but people motivate us, and as BMS embarks on the next chapter in our journey, we welcome old friends – and new customers – to join us on our quest to furnish golf clubs with the finest golf products, all manufactured to the highest British-standard.

HOLECUTTERS, CUPS & ACCESSORIES

BMS

Testimonial

The iPro hole changing system has taken the guess work out of changing holes at Cutten Fields Golf Club. Our staff can now execute this job faster and with more precision. We have had very few high or low plugs since switching to the iPro system.

*Bill Green, Superintendent
Cutten Fields Golf Club, Canada*

Anti-Vibration Custom Moulded Grips

Built in Bulls Eye Spirit Level Bubble

Auto Handle Locking Pin

Double Power Ratchet Extraction

Adjustable Depth Stop Ring System (Optional Extra)

We love the iPro, easily the best holecutter we have used, can't fault it!

Testimonial

Mark Hollingsworth, Greenkeeper
Whitley Bay Golf Club

iPro Golf Holecutter

Bulls Eye Level built into top handle to ensure a perfectly aligned hole is cut every single time.

iPro Golf Holecutter

- The iPro is now more ergonomic with new **Anti-Vibration** custom moulded grips, giving the user a more dexterous feel whilst providing a solid grip when pounding the unit.
- New modified blade top and super smooth material to eliminate hammer contact issues and drive the blade easily without compacting the root zone.
- **Closer Tolerance** engineering on the blade internals to ensure precision and reduce plug drop issues.
- Auto locking handle system, balanced to carry straight after cutting.
- The stronger locking **Easy Ratchet** mechanism and redesigned case hardened internals, contribute to 50% less back strain on the user.
- 100% designed & manufactured by BMS in Luton, UK. Suitable USGA and Push up Greens, inside or outside cutting blade options.
- Optional adjustable depth stop gauge, bolts into place for perfect repeatable plug swapping.
- Optional **Docking Station**, protects your greens from sharp edges and prolongs the life of the blades when transporting or storing in the shed.
- Annual service, collection, repair and delivery service available, ask for details.

iPro Holecutter with SAND Blade
Order Code: 50090

iPro Holecutter with CLAY Blade
Order Code: 50094

Spare Blades

iPro Spare SAND Blade - Inside Edge
Order Code: 50083

iPro Spare CLAY Blade - Outside Edge
Order Code: 50087

Depth Stop Adjustment Ring

An essential add-on that enables any user to consistently cut to the correct depth time after time.

Fits iPro and HIO Holecutters.

Order Code: 58301

Docking Station

Designed to protect the blade and make transporting the iPro in your utility vehicle easier. It can also be used on your workshop floor or left unmounted for greenside use. Also fits all other similar single blade holecutters.

Order Code: 50099

Railmaster

Railmaster Holecutter

The Railmaster is a revolutionary hole-cutting device where the blades travel along a guided rail system to ensure a perfectly cut hole - not only a first for the client base of BMS, but for the industry. The new and amended design has built upon the solid foundation of the first model and features a modified blade top to eliminate hammer contact issues, closer tolerance engineering to ensure precision and to reduce plug drop, two additional bracing points and extra welding. Not to mention the redesigned blades boasting up to four times the life of the nearest competitor.

Key Features

- Manufactured in the UK.
- Cuts a perfect 4.25" diameter hole.
- Solid one piece frame construction, keeps all moving parts accurate with closer tolerance.
- Mid height carry handle and extra bracing support to reduce flexing.
- Railmaster bearing guide rails on both blades, slide effortlessly against each other helping keep parallel blade travel whilst cutting holes, resulting in a perfectly cut tournament finish.
- Razor sharp toughened steel blades, up to four times stronger than any previous blades.
- Built in depth stop adjuster locks solid, fix anywhere in ¼" increments between 6" and 8" cut depth.

Railmaster Holecutter

Order Code: 50040

Railmaster Spare Blades

Order Code: 50045

We previously used a cheaper brand of hole changer because it seemed cost efficient but we were replacing many sets of blades each year. Since switching to the BMS Railmaster we have used only 1 set of blades and it has paid for itself many times over. This is simply the best twin shell holecutter we have ever used, giving a perfect cut everytime. We have since purchased two more for our other courses.

David Wyborn, Course Superintendent, Foxhills Golf Club

Holecutters

Turfmaster

The original BMS holecutter, and still a favourite for many greenkeepers.

Compact, light and easy to use, supplied complete with cutting blades.

Order Code: 50010

Order Code: 50084

HIO Spare SAND Blade
Order Code: 50082

HIO Spare CLAY Blade
Order Code: 50086

Nylon Impact Mallet

Our heavy duty Nylon Faced mallet will last for years. Using the correct mallet will prolong the life of your golf holecutter and make your job much easier.

Order Code: TB5210

HOLECUTTERS, CUPS & ACCESSORIES

Accessories

Hole Cup Setter

Aluminium Cup Setting Tool for setting cups to the correct 1" depth below the soil's surface accurately time after time.

Can also help install plastic stabiliser rings.

Order Code: **51170**

Top Hat Cup Setter

New adjustable cup setter, simply remove or add washers to get the perfect 1" setting below the surface.

Order Code: **51180**

Hole Cup Covers

New super tough PE based materials in regulation sizes with either plain green top surface or artificial grass as shown.

4.25" Green Plastic Hole Cup Cover
Hole cup cover without grass.

Order Code: **51249**

4.25" Brown Solid Hole Cup Cover
Hole cup cover with grass.

Order Code: **51240**

UK & US Cup Lifters

Remove or replace hole cups in seconds. Extracts the cup 'straight out' without fiddling around with awkward hook devices.

Available to suit our UK and USA cups.

Cam Cup Lifter - UK
Order Code: **51010**

Cam Cup Lifter - USA
Order Code: **51020**

Bucket Size Cup Lifter - UK
Order Code: **51030**

Bucket Size Cup Lifter - USA
Order Code: **51040**

Greenkeeper Bucket Bag

Greenkeeper's Tools & Mix Caddie.

As standard comes with a Soft Tub, which can be replaced with any standard bucket. Extra heavy duty stitching and bracing.

Order Code: **51070**

Custom embroidered logo pockets are available on request, example shown on page 128. Please ask for details.

Order Code: **51075**

Golf Hole Marker Paint

High pigment content paint, designed to work upside down. Ideal size to use in our dedicated tool or freehand with our new stencil design.

Order Code: **51127**

Paint Application Tool

Double layer discs and shroud, reduces overspray greatly compared to previous models.

Order Code: **51122**

Hole Painting Stencil

New hole painting stencil kit. Large protection disc for overspray collection. Internal stepped disc to cover top grass layer. Separate disc included that sits on top of the hole cup inside the hole.

Order Code: **51124**

Curved Trimming Scissors

Stainless steel, razor sharp hole trimming scissors. Supplied in a neat storage pouch.

Order Code: **51150**

Holecup Lifter / Rammer

Traditional puller and weight rammer tool, with replaceable screw-on Nylon face.

Order Code: **51060**

Holecup Cutting Board

Dual layer high quality composite hole cutting board. No sharp edges to damage the greens. New lighter weight design for 2018.

Order Code: **51100**

Holecups

Bright White Plastic Holecup

Our plastic holecups are made from the best quality composite money can buy. Includes special additives to give a brilliant white glow, whilst protecting against the sun's UV rays.

Bright White Plastic Golf Holecup UK
 Order Code: HC0010UK

Bright White Plastic Golf Holecup USA
 Order Code: HC0010USA

Putting Holecup

A shorter 4" (4.25" diameter) putting cup for ease of installation and more ergonomic for collection of balls when on practice greens. It also means the hole doesn't have to be cut as deep which is a great help if the sub soil is not in the best condition.

4" Putting Green Holecup UK
 Order Code: HC0012UK

4" Putting Green Holecup USA
 Order Code: HC0012USA

Winter Holecup

6" diameter winter cup constructed from heavy gauge steel using CNC machine accuracy for the internals and ferrule location. Finished in bright white durable powder coating. Available to suit UK or USA ferrule sizes.

Winter 6" Holecup UK
 Order Code: HC0030UK

Winter 6" Holecup USA
 Order Code: HC0030USA

15" Holecup

Ideal for practice areas, special events or beginners to speed up play.

15" Holecup UK
 Order Code: HC0015UK

15" Holecup USA
 Order Code: HC0015USA

Black Plastic Holecup

The bright white inner stays highly visible on your green whilst the black centre hides dirt and general wear and tear over time. The ball is also much more visible.

Black Plastic Golf Holecup UK
 Order Code: HC0014UK

Black Plastic Golf Holecup USA
 Order Code: HC0014USA

Aluminium Phosphate Holecup

Solid cast aluminium phosphate holecups come complete with a plastic sleeve that is easily replaceable.

Aluminium Phosphate Holecup UK
 Order Code: HC0022UK

Aluminium Phosphate Holecup USA
 Order Code: HC0022USA

Replacement Solid White Plastic Sleeve
 Order Code: HC0022SOL

Holecup Inserts

Logo'd Holecup Insert Sleeve

A custom printed split plastic insert sleeve perfect for adding your club logo or sponsor to the inside of our Phosphate Holecups.

Order Code: HC0022SLEL

Replacement Split White Plastic Sleeve - Plain
 Order Code: HC0022SLE

Logo'd Donut Holecup Insert

A new design perfect for adding your club logo or sponsor inside any of our holecups. The tested design doesn't interfere with pin removal and catches the ball perfectly for easy retrieval everytime.

Order Code: HC0010DO

Stabiliser Ring & Setting Tool

Stabiliser Ring

White plastic ring gives the appearance of the top 1" of soil being white. Also helps avoid debris falling into the cup from the side wall.

Order Code: 51130

Stabiliser Ring Setting Tool
 Order Code: 51135

HOLECUTTERS, CUPS & ACCESSORIES

BMS

Footgolf

Footgolf Package

In 2009 BMS was a part of the design team that developed one of the first ever Footgolf Holecups. Over the years BMS has developed and improved this product based on feedback and changes to the industry standards.

The holecups are manufactured in our UK factory to ensure they are produced to the highest standards. The holecups are fabricated using high quality steel for the surround, and thick plastic for the bases resulting in a premium quality product.

Included within the Package:

- 9 Footgolf Holecups
- 9 Flagpins / Sticks
- 9 Standard Footgolf Flags (Custom design with your own logo, brand or design is available on request)

Footgolf Package - UK

Order Code: **HCFT010SETUK**

Footgolf Package - USA

Order Code: **HCFT010SETUSA**

Footgolf Holecup

Each footgolf cup is manufactured in the UK using high quality steel and thick plastic with a bolted plastic centre section to allow UK or USA flagpins to fit and stand bolt upright in the middle. The slightly tapered design allows easy installation as well as making the cups stackable when in storage.

Footgolf Holecup UK

Order Code: **HCFT010UK**

Footgolf Holecup USA

Order Code: **HCFT010UK**

Footgolf Cup Cover

Specially designed to fit BMS Footgolf Holecups made from completely weatherproof wood. Easy to adhere your own artificial grass or paint to suit surroundings.

Order Code: **HCFT010 COV**

Footgolf Holecup Logo'd Insert

Your own logo or sponsor's branding can be added to our footgolf cups. Permanent or temporary magnetic wraps are available. Please ask for details.

Order Code: **HCFT010SLE**

Footgolf Cutting Template

Save your time and damage to surrounding turf. Stand on the board and cut the turf as required. An 8ft x 4ft size board, accurately CNC machined to mark the spot where your Footgolf Cup will be located.

Order Code: **HCFT010 BRD**

Standard Footgolf Flag

Our standard Footgolf Flags are made using premium quality fabric and through colour inks with a standard design and numbers.

Order Code: **HCFT010 FG**

Custom Footgolf Flag

We offer fully customised flags using premium fabric and through colour inks. The vibrant colours make any design "part of the flag".

Order Code: **FGPR1010**

FLAG PINS

BMS

BMS manufacture a full range of Flagpins that can be customised to suit your individual needs. A wide range of colours and stripe options are available. For more information please speak to a member of our team today.

LANHYDROCK
HOTEL GOLF CLUB FITNESS SUITE

As the new Golf Course Manager at Lanhydrock Hotel and Golf Club I wanted to upgrade the course furniture to match the prestigious club's image. The quality of the tournament flag pins, along with the aluminium phosphate cups exceeded all expectations and have looked pristine all season. BMS custom printed our tube flags to the exact colour required to complete the look. Low cost, for a big impact.

*David Bevan, Golf Course Manager
Lanhydrock Hotel & Golf Club*

Lee Strutt visits the team at BMS

BMS - British Manufacturing Solutions added 3 new photos.
September 1 •

To celebrate the history of the Royal Automobile Club, the team at BMS worked with Lee Strutt, Golf Course Manager at the RAC, to create a unique embroidered flag design. The design incorporates the original Dunlop P5 tyre tread pattern wrapped around the tube pocket. With the bespoke sewn-in label to identify the tread style. I'm sure you'll agree that the finished result looks exceptional.

BMS's Premium Printed Flags are great quality and perfect for everyday use along with memorable occasions such as Captain's Days and special events.

Dale Housden, Golf Course Manager
Hollywood Golf Club

Printed Flags

Any colour flag is possible to print! A full colour matching service is also available for specific pantone colours!

Custom Printed Flags

Here at BMS we only use the best quality materials and inks to produce our printed flags. With a choice of lightweight or premium quality polyester fabrics we can produce any flag to meet your requirements. Our standard and chipping flags are available with a choice of Tube, Velcro or Tie On fitments.

Football corner flags are also available with a special wide pocket area to suit corner posts.

TEE MARKERS

BMS

PGA®

The EuroPro tee markers made by BMS are of good quality and fit well with our brand and image.

National Tournament Department
PGA

BMS manufactures a full range of tee markers from standard log tee markers through to bespoke resin tee markers. Our design team will work with you to create the perfect design with a full range of materials available such as wood, solid resins and plastic.

CUSTOM MADE

DURABLE

MADE IN UK

TEE MARKERS

Custom Tee Markers

Our in-house design team can help you create the perfect design for your custom tee marker.

We use a range of materials to create the tee markers such as; wood, solid resins and plastic.

We also offer a free visualisation service so you may view your product before it is manufactured and make any amendments required.

Bespoke Tee Marker

Our bespoke tee markers can be made to any size or shape to suit your branding or marketing requirements.

For example PGA EuroPro Tour requested this special 'Swoosh' shaped tee marker that reflected the design of their logo.

Resin Tee Markers

Our solid resin tee markers are moulded in-house and can be customised to each club's individual needs with the option of printed insert plates.

Bespoke packing crates to transport and store your custom tee markers are also available upon request.

We approached BMS to help design and build our new tee signage, we wanted something cost effective that would last for many years to come. The team at BMS helped with numerous revisions and assistance with artwork at no additional cost. They took all the stress and hassle away for us and our members are very pleased with the stunning end result.

Easy sign rail and clip installation provided on the reverse of the sign.

Big Tee Information Sign
Order Code: **SI0020**

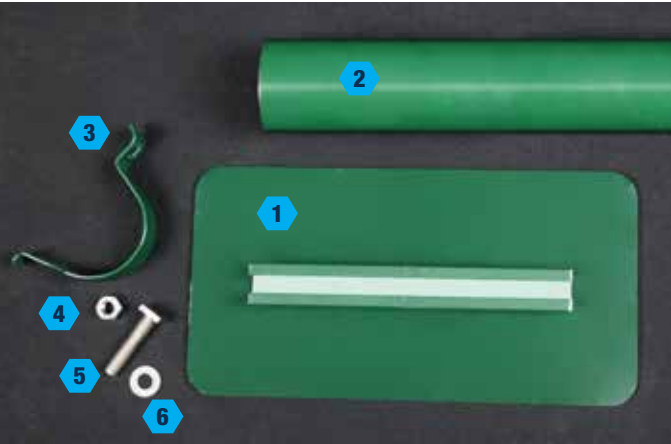

Big Tee Information Sign with Sponsor Plate
Order Code: **SI0025**

Rail Sign Installation

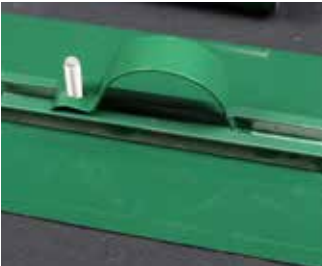

Rail and clip sign installation can be used on any large or small signs by following these 4 easy steps.

Step 1

You will need the sign supplied by BMS along with the post, post clip, bolt, washer and nut.

- | | |
|-------------------------|-----------------|
| 1 Sign with Rail | 4 Nut |
| 2 Post | 5 Bolt |
| 3 Clip | 6 Washer |

Step 2

Slide the bolt into the channel of the rail with the screw section facing outward. Then slide the clip into the rail channel so that the flat side with the hole can be lowered over the bolt.

Step 3

Add the washer to the bolt before loosely attaching the nut. The clip should still be able to move freely left to right at this stage.

Step 4

Place the sign onto the post(s) which should already be fixed in the ground and adjust the position of the sign accordingly. Once happy, tighten the nut to secure the sign in place.

Standard Signs

BMS Standard Signs are made from Forest Green 3mm thick aluminium composite plates. These signs come complete with white text and a border as standard.

Simply follow the 3 easy steps in selecting your sign plate and posts.

- Step 1: Choose Your Plate Size
- Step 2: Choose Your Text
- Step 3: Choose Your Stake

SI1 + TEXT025 + AS19

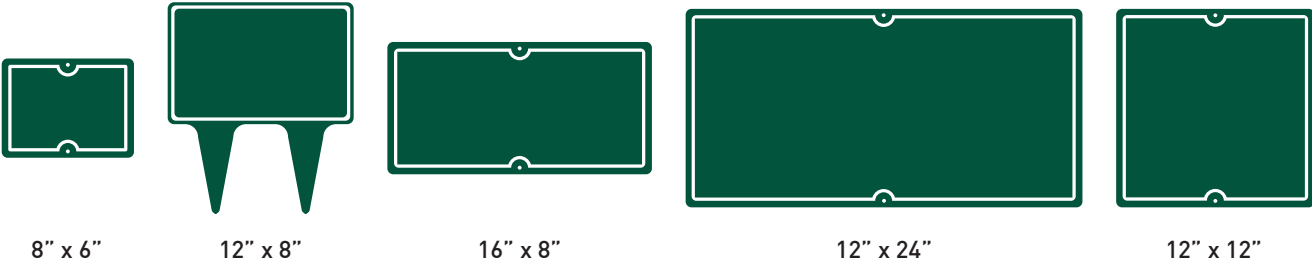

SI1 + TEXT090 + AS19

Step 1: Choose Your Plate Size

Size:	Code:
8" x 6"	SI1
12" x 8"	SI2
16" x 8"	SI3
24" x 12"	SI6
12" x 12"	SI7

Sign plates are available with 2 or 4 holes.

Step 2: Choose Your Text

Example Plate:

SI2 + TEXT045

Text:

- G.U.R.
- TO THE NEXT TEE ←
- TO THE NEXT TEE →
- PLEASE REPAIR PITCHMARKS
- PLEASE REPLACE DIVOTS
- TROLLEYS THIS WAY ←
- TROLLEYS THIS WAY →
- PLEASE KEEP OFF THE GRASS
- COURSE CLOSED
- CHEMICALS APPLIED TODAY

Cricket Crease Frame

Cricket Crease Marking Frame
The BMS folding frame has many unique features, enabling the Groundsman to easily mark out the Cricket Crease. Features include heavy duty folding hinges, a centre stump location hole, and a stowed 22 yard stainless steel measuring wire for marking out the correct pitch length.

Using this template the markings can be easily white lined or sprayed accurately to any desired width. The frame is manufactured accurately, following exacting tolerances, and is approved by the M.C.C. and other organisations. It is suitable for all Test, Country, Club, College and School matches.

Order Code: **22530**

Turf Lifting Iron
Essential tool for precise turf repairs, allows easy lifting of turf for maintenance. Allows users to carry out turf replacement without causing damage to the surrounding areas.

Order Code: **SJ3825AQ**

TURF CARE & HAND TOOLS

Turf Edging Tool

Heavy Duty Turf Edging Tool

The BMS turf edging tool with its large, sharp and hardened steel blade will give you years of use.

10 year no question guarantee, if this tool bends, breaks or causes you any problems, simply return back to us and we will repair and return back to you for free within the UK. All we will require is a copy of the original purchase invoice and for you to cover the transport cost to return the item and we'll do the rest.

Order Code: **20010**

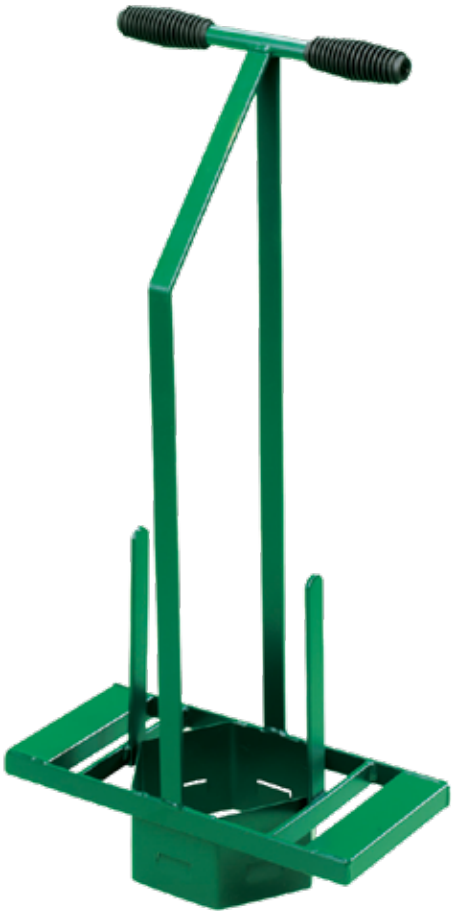

Hexagon Turf Doctor

This tool cuts hexagonal shaped pieces of turf 7" (18cm) across, to a depth of 3-4" (7.5-10cm). By using body weight either standing or jumping on the tool, no other equipment is required.

A very quick and effective way of turf removal, as several of the cut segments will stack in the tool's 'magazine' allowing for continuous operation and transportation from one area to another. Replaced segments create an attractive honeycomb effect. Recovery is quick and effective.

The bottom of the cut segments can be 'scalped' to ensure squareness when replacing.

Order Code: **15200**

Square Turf Doctor

Square Turf Doctor

Removes 9" (23cm) pyramid shape squares of turf sod. Repaired areas can be played on straight away because of the deep extraction taken. Each sod is cut exactly square and fits quickly and neatly into every exchange hole. A complete repair can be made with no gaps left between the sods.

- The true surface level is maintained
- The playing surface remains firm and stable as each sod is held firmly in place by the wedges of undisturbed soil.
- There is minimal root loss and recovery is very quick

Order Code: **15090**

Spare 9" Turf Doctor Blades (Each)

Order Code: **15095**

Mallets

Blue Strike Deadblow Mallet

Sturdy, reliable and one of the best dead blow mallets available.

Order Code: **TB5220**

Spare Blue Strike Mallet - Face Only

Order Code: **TB5222**

Nylon Impact Mallet

Our heavy duty Nylon faced mallet will last for years. Using the correct mallet will prolong the life of your golf holecutter and make your job much easier.

Order Code: **TB5210**

1.3Kg Rubber Mallet

Order Code: **TB5250**

TURF CARE & HAND TOOLS

Corer Collector

Corer Collector
Designed for aeration / Soil Coring providing assistance with irrigation, seeding, de-compacting areas, to aid root growth. The clever yet simple design that makes this tool unique is the collection box, which catches all of the crumbling remnants that eject through the five 4" x 1/2" (100 x 12.7mm) replaceable hollow tines, leaving no mess to clear up! The Corer Collector can be disassembled allowing tine replacement, or tine removal for exceptionally compact ground.

5 Tine Corer Collector
Complete with hollow tines.

Order Code: **10200**

Spare Hollow Tine
Order Code: **10210**

Sprinkler Head Trimmer

Sprinkler Head Trimmer

BMS manufactures a full range of razor sharp irrigation head trimmers. Ideal for quickly clearing away overgrown grass around irrigation heads and other such areas. The handle is supplied separately to the heads and will interchange with all sizes. Now manufactured from much heavier gauge steel to prolong life and allow heavier use.

Sprinkler Head Trimmer Handle Only

Pitchmark Repair Tool

Pitchmark Repair Tool

BMS heavy duty Pitchmark / Ballmark repair & Rejuvenation tool. Ideal for fast repair of ballmarks and indentations in the green or other fine turf areas.

Also works well with animal tracks, from light tracks through to horse hoofs, plus motorcycle tread patterns and damage. Will lift most indentations that are not completely torn apart.

By pressing down on the handle the 5 prongs automatically lift and return your turf to its required position. The flat base of the tool will keep your green flush and level.

Stainless steel tines give a perfect finish, a completely maintenance free tool effective for thousands of operations.

Order Code: **35200**

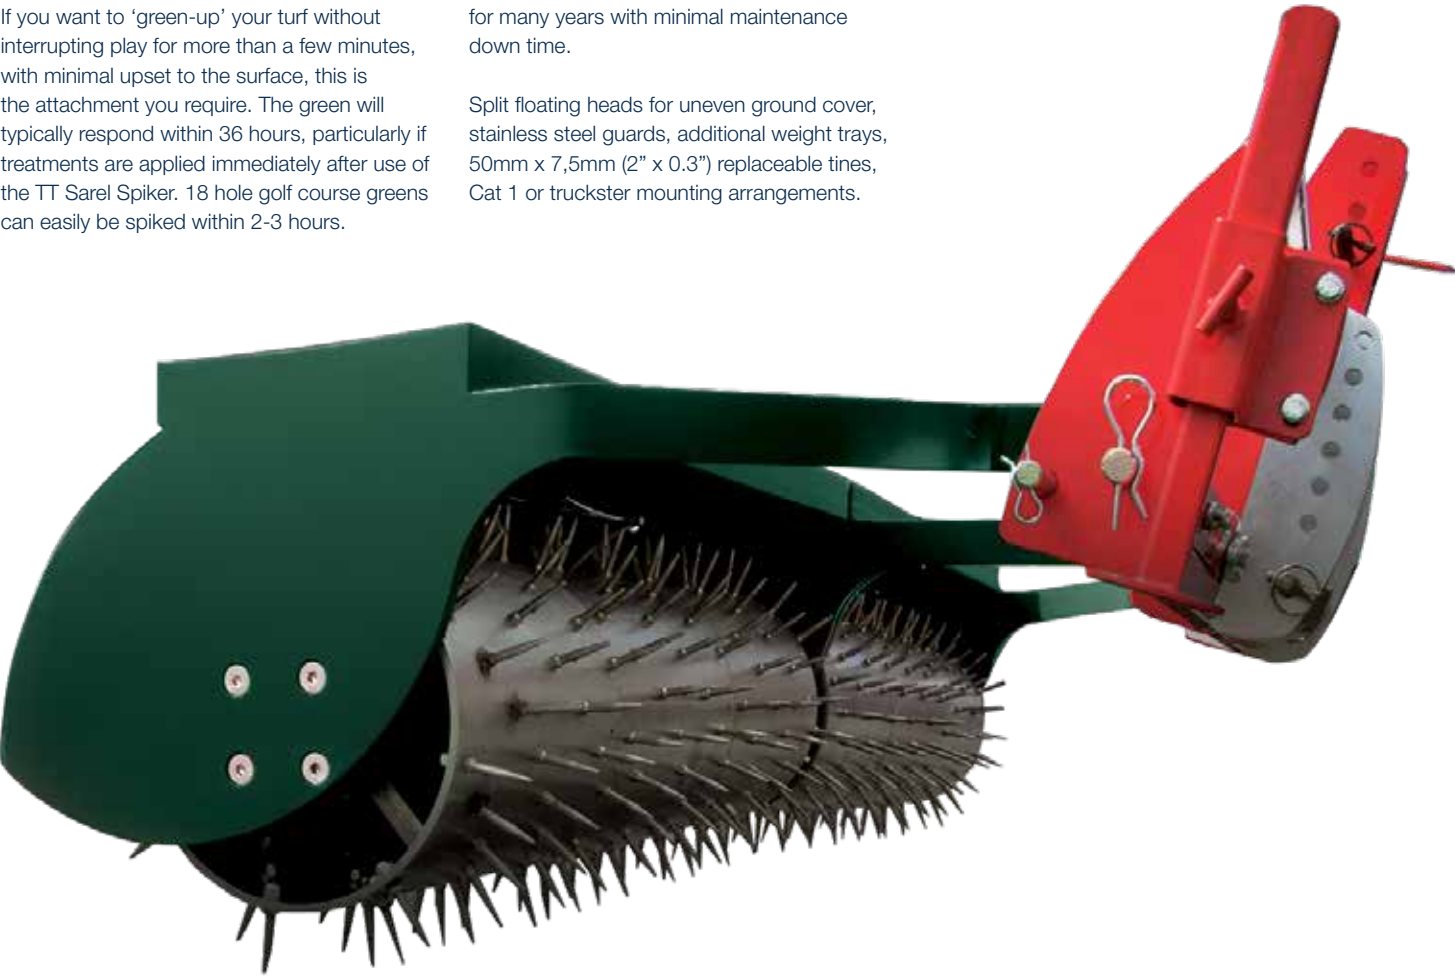

TT Sarel Spiker

Our customers have long acknowledged the benefits of the pedestrian Sarel Rollers and the TT Sarel Roller has been designed to fulfill customer's demand for a rapid wide area surface aerator.

If you want to 'green-up' your turf without interrupting play for more than a few minutes, with minimal upset to the surface, this is the attachment you require. The green will typically respond within 36 hours, particularly if treatments are applied immediately after use of the TT Sarel Spiker. 18 hole golf course greens can easily be spiked within 2-3 hours.

The TT Sarel Spiker has been designed to give 211 holes per square metre. The large 275mm (11") drum gives a much reduced 'flick-up' as the tines pass over the green. The heavier frame and improved corrosion resistance of the construction will allow you to run this machine for many years with minimal maintenance down time.

Split floating heads for uneven ground cover, stainless steel guards, additional weight trays, 50mm x 7,5mm (2" x 0.3") replaceable tines, Cat 1 or truckster mounting arrangements.

TT Sarel Specifications

- 1.9m working width (6ft 3")
- 2.0m transport width (6ft 7")
- 230kg (507lbs) weight (without ballast)
- Cat 1 tractor linkage holes
- Cat 1 = 19mm (3/4") Top x 1
- Cat 1 = 22mm (7/8") Bottom x 2
- 275mm diameter drums (11")
- 211 holes per m²
- 378 replaceable tines
- 50mm tine length (2")
- 7.5mm tine diameter (0.3")

Standard Tractor Setup

All 3 of the below parts are required for a standard tractor setup.

Red Cat 1 Mounting Headstock
Order Code: TT1010

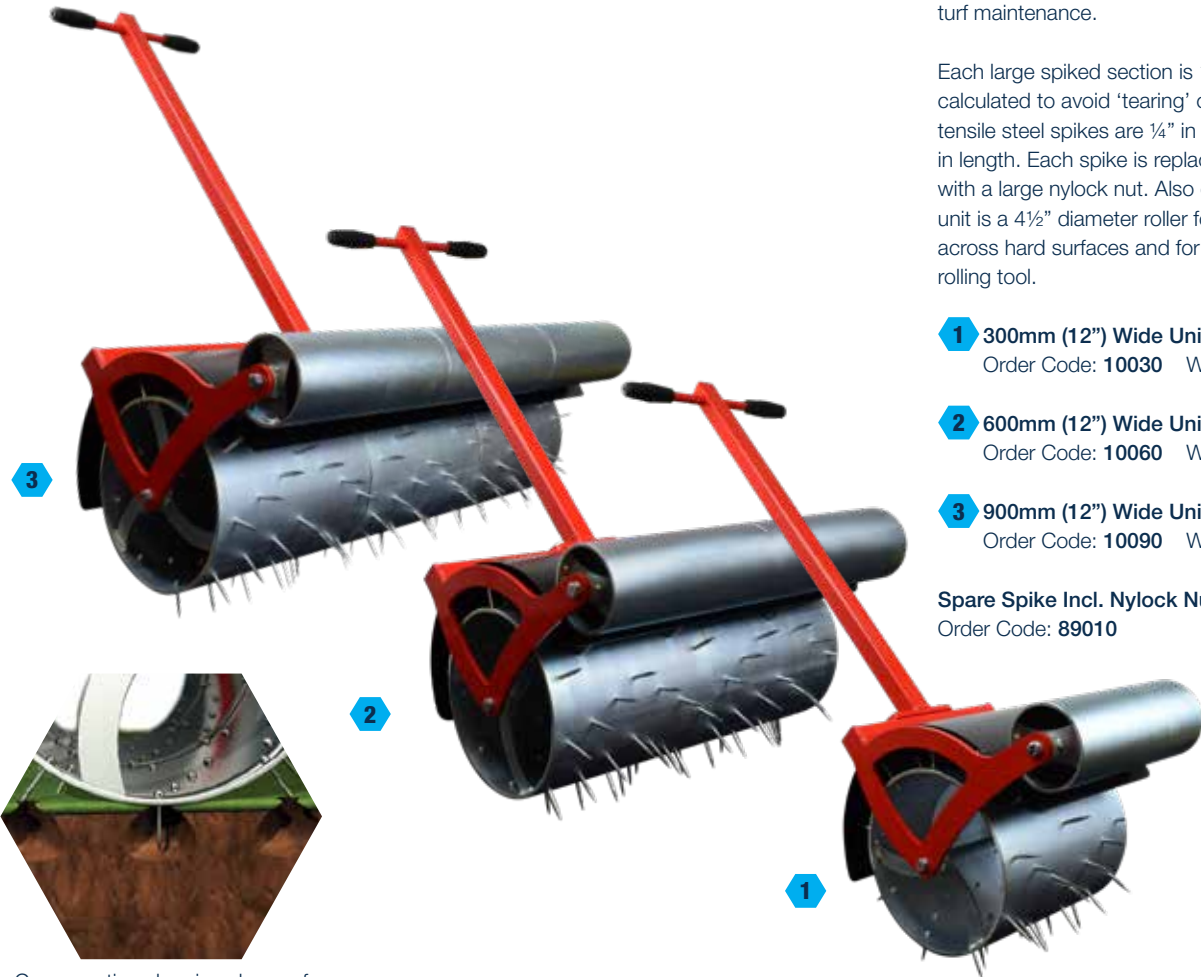

TT Sarel Spiker Unit - 2m Mounted
Order Code: TT2050

Truckster Mounting Bracket Set
Order Code: TT1050

Spare Cat 1 Mounting Pins (Set)
Order Code: TT1030

Spare Spike (Includes Nylock Nut)
Order Code: TT2055

Sarel Spikers

Cross section showing shape of incision made by spikes.

Sarel Spikers

Three widths of Sarel Aerators are available. Aids water/air penetration, greatly improves root growth for use when seeding and general turf maintenance.

Each large spiked section is 11" in diameter, calculated to avoid 'tearing' of the turf. The tensile steel spikes are 1/4" in diameter and 1 1/3" in length. Each spike is replaceable, held on with a large nylock nut. Also coupled to each unit is a 4 1/2" diameter roller for transportation across hard surfaces and for use as a ground rolling tool.

1 300mm (12") Wide Unit
Order Code: 10030 Weight: 29Kg

2 600mm (12") Wide Unit
Order Code: 10060 Weight: 51Kg

3 900mm (12") Wide Unit
Order Code: 10090 Weight: 80Kg

Spare Spike Incl. Nylock Nut
Order Code: 89010

Advantages

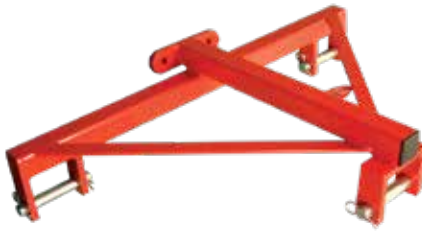

- Does not tear turf. Can be used without interrupting play.
- Aeration of the roots, greatly stimulating a healthy and vigorous growth and preventing burning during hot weather.
- The hole made by the spikes permit the hot air to escape, and the fresh stimulating air and dews to penetrate the roots. At the same time loosening the soil, allowing the roots to spread freely and healthily, and providing drainage.
- Allows top dressing to penetrate easily to the roots, ensuring quicker and longer lasting results.
- Prevents moss forming.

Towing Bracket & Eye

Retrofits all BMS models, simply bolted on. Eye remains slack to allow movement.

Order Code: 10010

3 Point Linkage Frame

3 point linkage frame retrofits all BMS Sarels.

Order Code: 10025

TURF CARE & HAND TOOLS

Seed Slotters & Spikers

Used for overseeding worn areas/patches on all fine turf areas. The rotary slotter unit will not tear up the surface and correct depth is obtained by the rotary stops at each end of the slotter reel. The static units can also double as 'tamperers', with their heads removed. The spiker units are also used for aeration.

By providing a flat bottomed slot at the correct optimum depth of 1/2" (13mm approx), the seed 'turns' during the rapid germination period of less than 7 days.

Moisture in the soil is better absorbed by the seed, encouraging stronger root growth, within a protected environment.

Most of the seed employing the traditional surface application method is simply wasted. Birds, washing, lack of moisture and low spots account for huge failures in germination.

It is now supplied with a 6ft removable handle, which can be cut down to the required working length.

Benefits:

- Very inexpensive when comparing against seed wastage
- 50% less seed required
- No need to close down play with no loss of amenity
- Much stronger and healthier
- User friendly and simple to store

Rotary Hand Seed Slotter

Rotary depth control stops not-fixed skids from damaging your surface. One piece solid handle design.

Order Code: **35010**

Rotary Hand Spiker

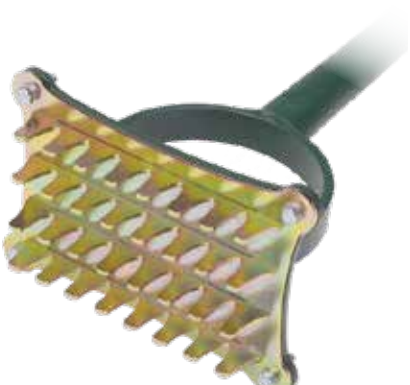

Order Code: **35020**

Static Spiker

Complete with 25 spikes.

Order Code: **35040**

Static Seed Slotter

Order Code: **35030**

Spare Spike Incl. Nylock Nut
Order Code: **89010**

Hedgehog & Weasel

Weasel

The Weasel is designed for de-compacting and breaking up soil into a tilth. These are both for cosmetic reasons allowing in air and moisture, and for use when re-seeding damaged or worn areas. Also ideal for use around the edge of compact sand bunkers.

Order Code: **35100**

Hedgehog

The Hedgehog is designed for use with localised aeration of fine turf, and for overseeding. Although the design of both tools is very similar they are very well suited to complete different applications.

Order Code: **35110**

Wentworth Tool

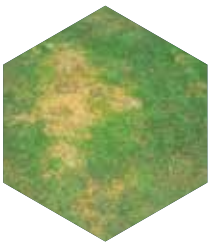

Are your divot holes suffering from that half repaired mole hill look? With this tool you can make an almost invisible repair in seconds. Players will benefit from the playing surface and presentation they have come to expect from your work.

Unique features and benefits: The Wentworth Tool creates the equivalent of over 10,000 holes per square metre for its given footprint area! Divots are consolidated and the recovery time is very quick. Issues of replaced turf dying or lifting out are eliminated with this tool.

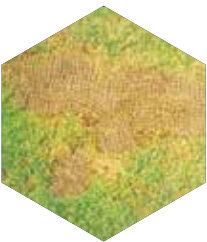

- Repair divots in seconds
- Creates 10,000 holes per square metre
- Divots consolidated and recovery time is very quick
- Ideal for prick seeding
- Reduces the use of expensive chemicals, seeds and large scale replacements
- Save time and money avoiding major renovation work

Order Code: **35070**

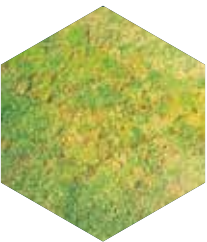

Spare Spike Incl. Nylock Nut
Order Code: **89010**

TURF CARE & HAND TOOLS

Harvester

Harvester Top Dressing Machine

The ultimate top dressing machine! Ideal for spreading loam, lawn dressing, greens dressing, kiln dried sands, fertilisers, rubber crumb, salt and much more. The hopper is constructed from stainless steel and holds approx 300 litres of material. The rotary agitator is easily switched on and off by a dog clutch on the driving wheel, allowing transportation without material resistance.

Order Code: **35300**

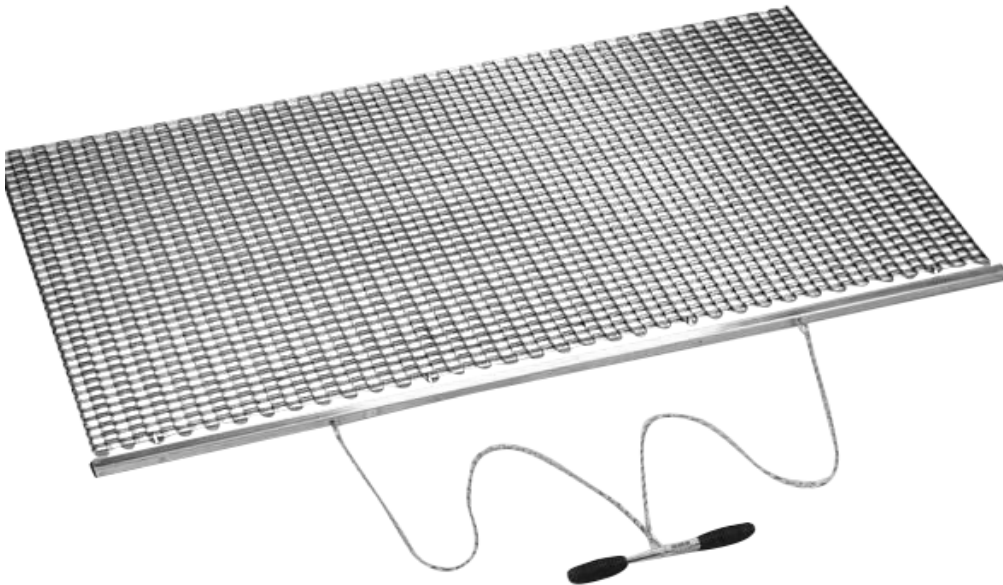

Dragmat

6ft (1.83m) Wide Dragmat

Heavy gauge steel construction, for use with top dressings, overseeding, grass lifting prior to cutting etc. Supplied with chain bridle, handles and connection draw bar.

Order Code: **21060**

Turf Tools

Turf Slitter

A highly effective tool for replacing, renewing, repairing or simply lifting turf quickly and easily. Depth of cut is kept consistent by the two skids on either side of the tool, which allows equal replacement of extracted turf.

Order Code: **15010**

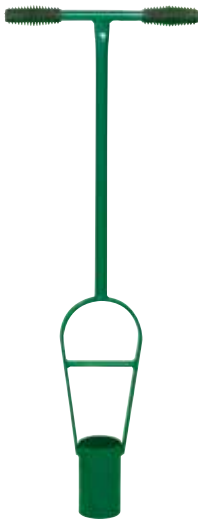

2" Spotless Plugger

Removes approximately 2" (5cm) plugs to an adjustable depth of 2-4" (5-10cm). All cut plugs are collected in the tube stem, leaving no mess. The blade is hardened and fully adjustable.

Order Code: **15320**

Spare Blade for Spotless Plugger
Order Code: **15325**

3" Bulb Planter

Removes 3" (7.5cm) diameter plug to a depth of 5" (12cm). Fitted with a foot stirrup for quick and continuous usage. Ideal for patch repair, planting bulbs and small plants.

Order Code: **15330**

Drag Brushes

Heavy gauge steel frame encloses stiff nylon bristle heads, which are replaceable. For use with top dressings, dew and worm cast removal, grass grooming and ground clearance.

Dragbrush 4ft (1.22m) Wide
Order Code: **22040**

Dragbrush 5ft (1.52m) Wide
Order Code: **22050**

Dragbrush 6ft (1.83m) Wide
Order Code: **22060**

Dragbrush 7ft (2.13m) Wide
Order Code: **22070**

Spare Brush Section 14" (35cm)
Order Code: **22010**

Levelawns & Lutes

BMS manufactures a full range of Levelawn's (Lutes) for use on fine turf areas. The smaller being ideal for general grading and levelling work, whilst the larger are used to remove even the slightest undulations when used correctly.

28" Flip-Over Levelawn

General purpose heavy duty double sided 'flip-over' design. Flat side for levelling and sharp side for aggressive preparation work.

Order Code: 30280

36" 'Greenkeeper' Levelawn

Very lightweight, slightly flexible design, it follows minor ground contours without scarring. Ideal for most ongoing general work.

Order Code: 30360

40" De-Luxe Lute

Very robust lute ideal for most finishing work. Strong box section construction with extra bracing supports to help maintain stiffness.

Order Code: 30400

4ft Superub

This tool is ideal for finishing large surface areas for the perfect level. Constructed from large box section and strongly braced to maintain accuracy.

Order Code: 30480

Superwide Levelawns

The larger BMS Levelawns have been designed for use on many fine flat turf areas, such as bowling greens, croquet lawns, lawn tennis courts etc, during ongoing programs of maintenance.

The inner bars of the 2m & 3m Levelawns serve to help spread top dressing material, followed by fine levelling with the rear channel of the frames.

The inner bars are adjustable, ideally set 1-2mm above the level of the outer channels. Because

of the high accuracy in their manufacture, correct use will reduce undulations on playing surfaces to at least 6mm (1/4") or less.

1 Superwide Levelawns - 2m Wide
Order Code: 32020

2 Superwide Levelawns - 3m Wide
Order Code: 32030

Impact Soil Sampler

The new Impact Soil Sampler now has a clever frame design that allows you to split the supporting frame into two halves. This means that when you have taken a sample you no longer have to slide or remove the blades, either damaging or smudging the sample. This also completely eliminates any physical effort needed to separate the blades from the tool.

Diameter of Sample Hole: 2 Inches
Depth of Sample Hole: Just Over 8 Inches

Order Code: 25230

Impact Soil Samplers Spare Blades
Order Code: 25235

Blue Strike Deadblow Mallet
Sturdy, reliable and one of the best deadblow hammers available.

Order Code: TB5220

Soil Samplers

Agronomist Open End Sampler
Machined from solid stainless steel. A high quality tool with its end left open for easy appraisal of the sample.

Order Code: 25030

Standard 1" Soil Sampler
This 1" (2.5cm) Soil Sampler is great for general purpose work, the core sample taken is easily examined in the large tine window.

Order Code: 25010

1.5" Soil Sampler
This 1.5" (3.8cm) Soil Sampler is great for general purpose work, the core sample taken is easily examined in the large tine window.

Order Code: 25040

Soil Profile Sampler
A robust shovel type sampler, slightly tapered to give a clean cut with minimal disturbance. The blade is easily removed to allow examination of the profile. The plug can be replaced with minimal surface disturbance.

Order Code: 25210

Victory Soil Sampler 7/8"
A pocket size sampler, full tube core extraction with depth measurements. Fully hardened tip and tapered no block design.

Order Code: 25070

Handy Stainless Soil Sampler
A high quality small core sampler (3/4" 2cm) manufactured in stainless steel and features a double window tine for quick and easy appraisal of soil stratas near the surface. This handy sampler has a loose 'T' handle for convenient storage, and for assistance with removal of the sample. Supplied complete with storage container.

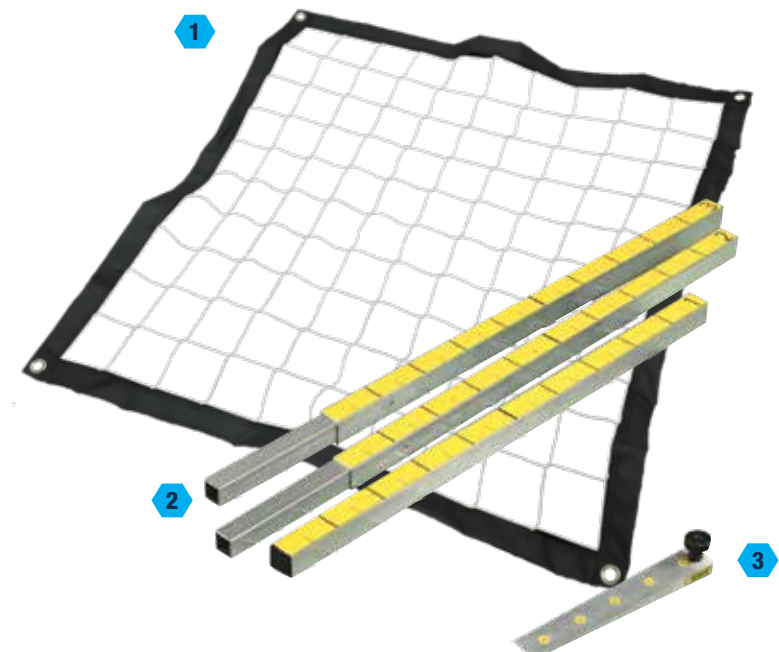

Order Code: 25060

Note, this tool must be used in conjunction with a dedicated nylon faced BMS mallet, this both increases the life of this instrument and also makes your job much easier.

TURF CARE & HAND TOOLS

Agronomist Tools

- 1** Grid Quadrat 1m² Net
Order Code: 26040
- 2** 3 Section, 3m Straight Edge
Order Code: 26010
- 3** Graduated Measuring Wedge
Order Code: 26020

Stimpmeter
The official greens speed measuring tool. Full instructions on how to use this tool are supplied.
Order Code: 54500

Grass Measuring Prism

Grass Height Measuring Prism
The perfect tool for checking your mower cut accuracy. Made from stainless steel holding a solid high quality glass prism that bends light at 90 degrees. Simply place directly onto your golf green, tee, fairway or athletic field and look down through the instrument, you can determine the actual height of cut as well as the quality of cut and smoothness of the surface.
Graduated measurement lines show both metric and imperial. Ideal for inspecting golf greens, bowls, cricket pitches, grass tennis courts or any fine turf surfaces where mowing cut accuracy is important. Comes complete with protective box.
Order Code: 26070

Bootwipers

Square Pattern Bootwiper
Traditional square pattern Bootwiper. With a high quality powder coated frame and replaceable brushes. Holes in the four corners enable the frame to be securely fastened to the ground.

Order Code: 40025

Replacement Brushes
Set of 4. Includes replacement fasteners.

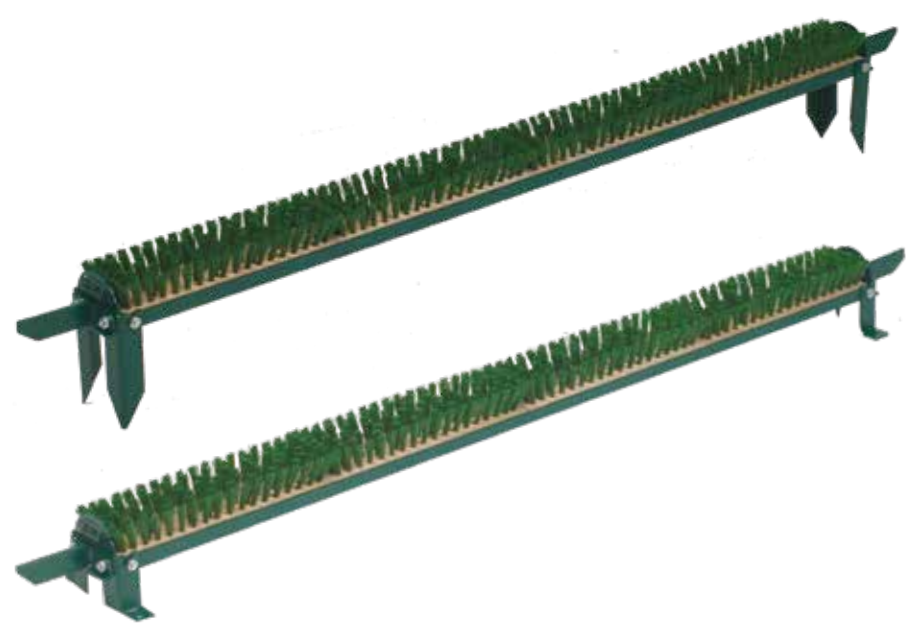

Order Code: 40240

Optional Scrapers
Sold as a pair.

Order Code: 40026

Boogie Brush
Long handled debris removal brush.

Order Code: 40028

Bootwiper Stations
Bootwiper Station - Spiked Feet
Single row 4ft Bootwiper station comes with spiked feet.

Order Code: 40035

Bootwiper Station - Bolt Down Feet
Single row 4ft Bootwiper station comes with bolt down feet.

Order Code: 40036

Optional Loop Hand Rail
Order Code: 40038

New slightly stiffer bristles, more aggressively removes dew and avoids smearing.

I tested the original version of the folding dew brush at my previous course, such a great tool. We no longer crash through trees and storing correctly means we get 3 times the life out of our brushes now.

**Dale Housden, Golf Course Manager
Hollywood Golf Club**

Folding Dew Brush

The BMS Folding Dew Brush will help eliminate the age old problem of transportation of an item with such large dimensions. Using the easy slider design you can simply slide the Dew Brush closed when you have finished using it, to eliminate any potential breakages or bowing of the brush ends while in transit.

Order Code: **23615**

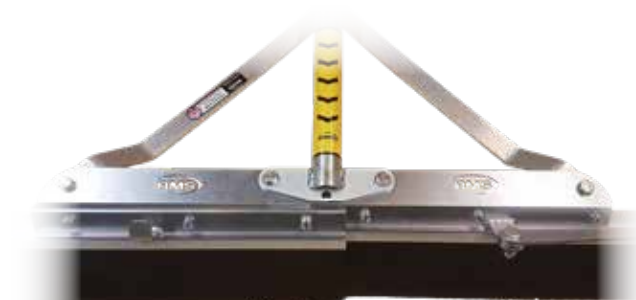

Dew Brush - Replacement Brushes (Pair)
Order Code: **23605**

Improved Design

New and improved design for 2018, the brushes now overlap.

New bracket and locking system for 2018.

Standard Dew Brush

3m Wide Dew Brush

Traditional design. 3m (10ft) wide. Fixed Head. One piece design with strong bracing bracket.

Supplied with Handle.

Order Code: **23600**

3m Wide Dew Brush w/ Switch

Same spec as standard 3m wide dew brush.

Supplied with removable switch handle.

Order Code: **23610**

Replacement Brushes

Replacement Brushes to suit 3m Wide Dew Brush and 3m Wide Dew Brush with Switch Handle. Sold as a pair.

Order Code: **23620**

Big Banana Dew Switch

Big Banana Dew Switch

For removal of dew, leaves, pine needles and worm castings from greens and other fine turf. Promotes quicker drying and raising of ground temperature to encourage growth and avoid disease.

Aluminium construction with two handle grips and a solid ferrule for preventing distortion of the tube end. The replaceable end section is 2.5 metres in length, and constructed from high quality fibreglass rod.

The rod system cannot fall out of the handle due to BMS' unique design. Double plugged at the handle end.

The end of our switch handle is constructed from CNC machined solid stainless steel to avoid unnecessary wear to the internal switch tip providing much easier access and use.

Overall length when extended is approximately 4 metres.

Order Code: **23510**

Spare Reinforced End Section
Order Code: **23515**

Spare Plain End Section
Order Code: **23517**

Roller Squeegees

Designed to push collected water quickly and effectively. A soft sponge core surrounded by a heavy gauge flexible PVC skin to provide superior quality and strength. The old days of soft sponge squeegees falling apart have long gone! All working parts are non-corrosive.

1 Roller Squeegee 0.6m (24") Wide
Order Code: **23800**

2 Roller Squeegee 1m (39") Wide
Order Code: **23810**

TURF CARE & HAND TOOLS

Sprinkler & Couplings

Sprinkler
Heavy duty powder coated metal frame provides a very stable base for our sprinkler head. The non restricting 3/4" bore comes complete with snap coupling to fit quickly onto your hose supply.

Feather Flags

BMS offers a range of feather or teardrop flags and bases to suit your needs. All flags are available in 3 sizes and supplied single sided or double sided on special request.

For more information contact our in-house design team.

3m Feather Flag
3m Feather Flag with your choice of artwork. Supplied with poles. Bases sold separately.

Order Code: **FG-FF3SS**

4m Feather Flag
4m Feather Flag with your choice of artwork. Supplied with poles. Bases sold separately.

Order Code: **FG-FF4SS**

5m Feather Flag
5m Feather Flag with your choice of artwork. Supplied with poles. Bases sold separately.

Order Code: **FG-FF5SS**

Teardrop Flags

3m Teardrop Flag
3m Teardrop Flag with your choice of artwork. Supplied with poles. Bases sold separately.

Order Code: **FG-TF3SS**

4m Teardrop Flag
4m Teardrop Flag with your choice of artwork. Supplied with poles. Bases sold separately.

Order Code: **FG-TF4SS**

5m Teardrop Flag
5m Teardrop Flag with your choice of artwork. Supplied with poles. Bases sold separately.

Order Code: **FG-TF5SS**

Bases

Spike Base
Steel spike for soft ground or sand. Secure fit as well as offering free rotation.

Order Code: **FG-FFS**

Tank Base
14l capacity for water or sand. Designed for easy handling even when filled.

Order Code: **FG-FFT**

Car Base
'V' shape allows base to be wedged under any parked vehicle wheel (or driven onto).

Order Code: **FG-FFC**

Clubhouse Flags

Clubhouse Flags

Our clubhouse flags are available in 3 sizes, 5x3ft, 6x4ft and 7x5ft and all supplied with a toggle fitment. These are produced as either single sided or double sided printed flags with your choice of colour and design.

Features

- Unlimited colours and designs
- Fast turnaround times
- Vibrant and durable
- Superior results
- Supplied toggled and ready to fly

1 5x3ft Clubhouse Flags

5x3ft Single Sided Clubhouse Flag
Order Code: FGCL1010

5x3ft Double Sided Clubhouse Flag
Order Code: FGCL1020

2 6x4ft Clubhouse Flags

6x4ft Single Sided Clubhouse Flag
Order Code: FGCL1030

6x4ft Double Sided Clubhouse Flag
Order Code: FGCL1040

3 7x5ft Clubhouse Flags

7x5ft Single Sided Clubhouse Flag
Order Code: FGCL1050

7x5ft Double Sided Clubhouse Flag
Order Code: FGCL1060

Lightweight Single Layer Flag

Traditional lightweight flag. Single piece of material with reversed image on the back. Approximately 80% show through.

Double Layer Flag

Double Layer flag. Print visible the correct way round on both sides.

Caddie Bibs & Bands

Caddie Bibs

Our Caddie Bibs can be made in a choice of two materials, our high quality Polyester or our Airmesh Polyester. The entire area of the caddie bib can be printed in your chosen design and colours to suit your event.

As seen at the Northern Ireland Open 2015, 2016 and 2017.

High Quality Polyester Caddie Bib
Order Code: TNCB1010

Airmesh Caddie Bib
Order Code: TNCB1020

Marshall Armbands

Our Marshall Armbands are supplied with velcro fittings to enable the user to adjust to their individual size requirements. The full armband can be printed in your chosen design and colours to suit your event.

Order Code: TNCB1030

Display Banners

Pop-Up Display Banners

Our pop-up banners are supplied in 3 sizes: small, medium and large. The flexible framework holds your printed artwork tight when in use, but also allows the banner to be easily folded away in the supplied carry case when not in use.

All of our pop-up banners are easy to transport, store and quick to set up.

Pop Up Bean Display Banner Small
Bean Sign: 1.4m x 0.7m

We handcraft our course furniture products from the finest materials available, including Iroko Hardwood, Recycled Composite Plastics, Stainless Steel and more.

All engineering and fabrication are handled within our factory north of London, where you and your team are welcome to visit us and view a true British manufacturing company.

BMS are proud to supply...

Information

SETTLEMENT

Payment for non-account holders is accepted in the forms of cash, cheque and credit card alongside your order. Payment for account holders is strictly 30 days net end of month. BMS reserves the right to levy a surcharge of 2.5% per month (above bank rate) until settlement has been made. Credit notes will only be issued for goods returned in the condition they were dispatched, unless proven to be faulty, and can only be used within three months from date of issue. Non payment within our requested period will result in your account being placed on a proforma basis.

VALUE ADDED TAX

All prices including carriage are exclusive of VAT. (Applicable to UK mainland and NI only)

CARRIAGE

The cost of carriage is set at £14.95, up to 50kgs, quotes thereafter, within UK mainland. Quotes can be requested by contacting BMS, or your local distributor. All transit risks other than those covered by the couriers normal terms of business are the responsibility of the purchaser. Insurance may be arranged upon request, for an additional fee. Purchasers wishing to collect goods may do so by prior arrangement. Specific delivery times on day of delivery are not possible. All goods are dispatched Ex Works.

RECEIPT

On receipt of delivery all goods should be examined by the consignee. When this cannot be done all courier delivery notes need to be clearly marked as unchecked before signing. If a signature is received for goods received in good condition no claim will be considered.

RETURNS

Goods returned after 21 days will only be accepted at BMS discretion, and are subject to a 25% handling charge, plus the cost of any collections. No refund or replacement will be considered until the original goods have been thoroughly inspected by a qualified member of staff at BMS.

SAMPLES

Any request for sample products will be invoiced at full value like any other sale. On return to our warehouse they will be inspected for damage or use. If they are returned in the same condition with equal packaging as originally sent, a full credit note will be issued. For any damage or repair work that needs to be carried out prior to us re-stocking this will be charged accordingly. Samples must be returned within 21 days or the full invoice value will stand and no refund will be given.

NON DELIVERY/DAMAGE

Notice of damage or non-delivery needs to be given straight away by telephone and then confirmed in writing to BMS no later than 3 days after due delivery date. Claims notified after this period will NOT be accepted. Goods must be returned to BMS prior to making any decision. Any misuse of tools and equipment which results in damage does not constitute as faulty and therefore BMS accepts no responsibility.

TITLE OF GOODS

BMS Products retains the title to all goods until settlement has been received in full. We reserve the right to reclaim any products which remain unpaid, with any costs (including legal expenses) passed to the buyer.

CONTINUOUS IMPROVEMENT

BMS has a policy of continuous improvement. Therefore, the specifications and prices of the products may alter at any time without prior notice. All weights, measurements, colours and sizes shown in the brochure (and price list) may vary. The precise specification of any product will always be given on request.

BMS, BMS Products Company, BMS Products LLC, BMS Europe Ltd, BMS (Better Methods) Europe Ltd, are all trading names of British Manufacturing Solutions
