MASTER BALL WASHER  
Page 7

**The perfect start, starts here.**

Golf ball washers are a quintessential golf course accessory and have been a part of golf's history for over 100 years. Our Master and Deluxe ball washers have graced courses worldwide for nearly 70 years. Not only are they the most iconic ball washers in golf, but they are also practical, expected by golfers, help with pace of play and provide golf courses the lowest total cost of ownership. **Did you know**, that on average, golf courses spend 0.09% of their monthly labor attending to Par Aide ball washers on the course. With such low labor costs coupled with the benefits provided to golfers, it's clear that golf ball washers have an important role in day-to-day golf course operations.

### GOLF HOLE RING

---

Using a Golf Hole Ring helps maintain the integrity of the cup hole edges, which are being damaged at a higher rate because of the new USGA rule allowing the flagstick to be left in while putting. The bright white ring makes the hole more visible and creates the same visual effect as hole paint, without labor and clean-up. Use with the Golf Hole Ring Cup Setter to easily install the ring when setting the cup.

---

### GOLF HOLE RING CUP SETTER

---

Our new powder-coated aluminum cup setter is specifically designed to install our Golf Hole Ring when setting cups. Slip a ring onto the cup setter, install the cup, give the cup setter a ¼-turn and both the cup and ring are properly installed.

# COURSE MARKINGS

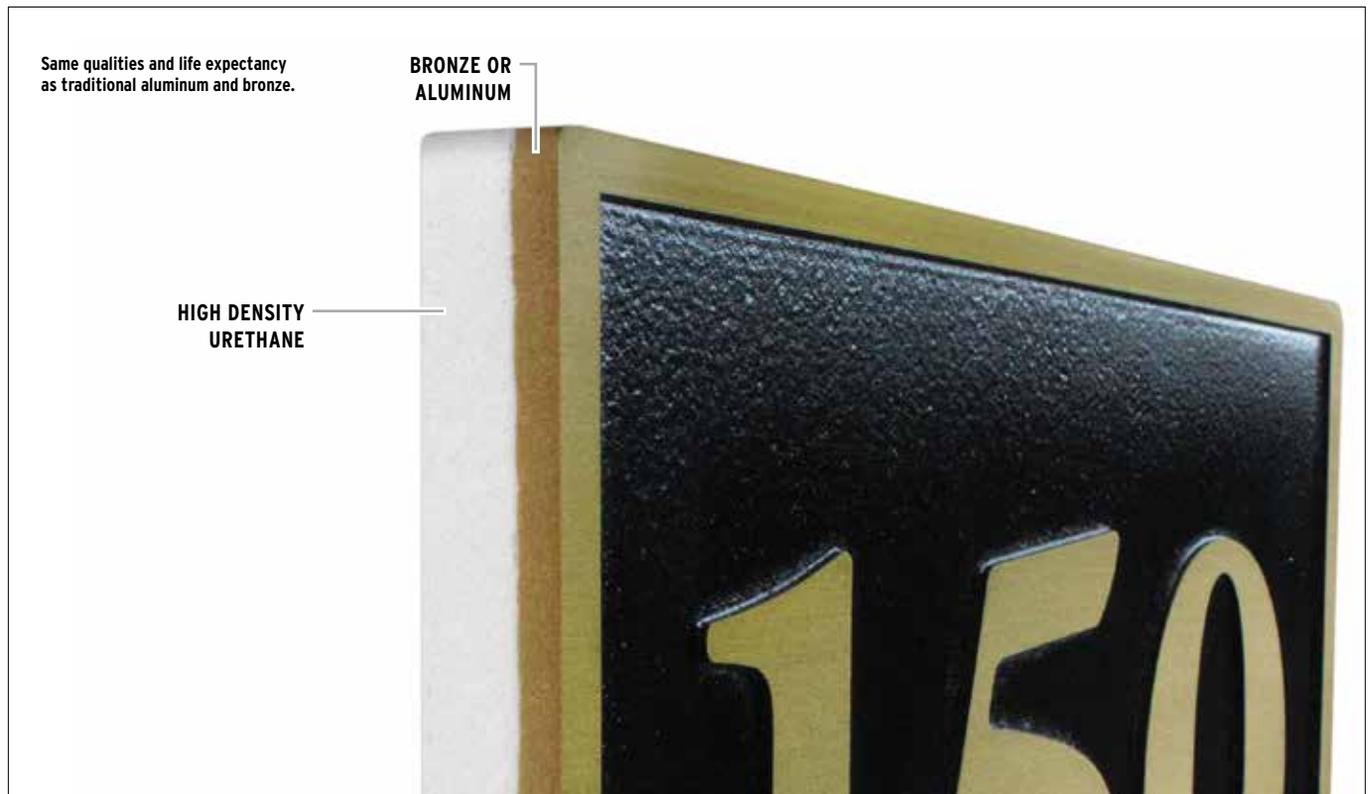

### The ultimate sign of quality.

Nothing helps elevate the perception of course status more than cast metal course signage. But the prohibitive cost of foundry-produced cast signage can be out-of-bounds for most. Now with Par Aide's line of FusionCast signage, aluminum or bronze metal signs, plaques and markers are within reach.

Our FusionCast signage uses a patented technology that fuses metal with high density urethane (HDU), resulting in dimensional plaques and markers that look, feel and perform like foundry-poured signs, but without the excessive weight and high production costs.

This unique cold-casting technology also lets us create highly detailed customized signs. Emblazon your brand onto tee markers and plaques, in-ground tee and fairway yardage plaques, cart path pyramids, sponsor signs, facility wayfinding signs and tee signs. Every FusionCast sign is available in aluminum or bronze and adds an elegance that enhances the brand of your facility.

Par Aide FusionCast markers and signs are available in a range of stock template shapes, sizes and mounting configurations. Best of all, our FusionCast signs are proven to perform exceptionally in the harshest climates, providing the richness and rugged durability you expect from high-quality metal signage.

**FusionCast® TEE SIGNS**

Our tee signs are the perfect way to enhance the branding of your course on each tee box. These products are completely customizable to the detailed specifications of your course creating endless possibilities including:

### FusionCast® LOGO AND HOLE LAYOUT OPTIONS

Whether it's your course logo or a company logo for your sponsor signs, we have two options that work great for most FusionCast products. The sleek cast metal logo offers a uniform look in the popular aluminum or bronze metal options. If you are looking for a full color logo, our super durable and weather resistant domed acrylic logos give your FusionCast signs a look that pops. Further customize each tee sign with a detailed, full color hole layout with our acrylic domes. Another great feature and gives golfers an aerial view of each hole.

### DEW DRAGGIN'

The Dew Draggin' fine-tunes your course for events and early morning golfers by removing dew and dispersing grass cuttings, all while reducing labor, money and time! Dew removal is also proven to be one of the best ways to help reduce turf disease. An average-sized, 18-hole course can be covered in just 60-90 minutes. The rugged 1 1/8 in. (3 cm) polypropylene drag rope follows ground contours and the drag harness attaches to any maintenance vehicle. Harness lines let the 25 ft. (7.6 m) wide Dew Draggin' maneuver around obstacles and provide dramatically improved results after mowing. And at just 30 lb (13.6 kg), the Dew Draggin' can easily be pulled by hand over delicate greens.
